

SALIVET

A concentrated extract of natural salicylates

Reduces pain and inflammations

Lowers overheating symptoms

Stimulates digestive tract

Improves condition of the flock

SALIVET

is a mixture of natural salicylates isolated from natural herbal material. Natural salicylates evidence anti-inflammatory and analgesic effects. They also inhibit the blood platelet aggregation. By diluting the blood, they prevent cardiovascular system disorders. Natural salicylates contained in SALIVET are the best solution for problems in rearing of young birds and during the final fattening period.

INDICATIONS

SALIVET is intended to be administered to all species and production groups of poultry in the following cases:

- 1 locomotor problems caused by joint inflammations,
- 2 decrease of fitness, in particular in young birds and during the final fattening period,
- 3 brittleness of blood vessels,
- 4 decrease of egg yield,
- 5 cardiovascular system disorders caused by too fast growth of the livestock.

APPLICATION

400 ml	1000 l drinking water	12 h a day	3-7 days
--------	-----------------------	------------	----------

COMPOSITION:

Highly concentrated herbal extract containing natural salicylates (ALL IN technology), sodium chloride, potassium chloride.
