

# BIOSTIMIN

Stimulates immunity

-  Supports immunity
-  Improves condition of the flock

## BIOSTIMIN

is a well-balanced formula of immunostimulators, bactericidal, virucidal and anti-inflammatory substances. The properties of the active agents (poliphenol acids, flavonoids, polyacetals, alkylamides) and the synergy of their activity allow safe application of BIOSIMIN in cases when there is a necessity to raise the immunity against infections or in course of recovery from diseases affecting the immunity. Due to the stimulation of the immune system and its anti-inflammatory properties. BIOSIMIN is suggested for use in vaccination periods and in course of most health problems of birds. It can be applied along with antibiotic or mineral-vitamin supplements.

### APPLICATION

500 ml	1000 l drinking water	12 h a day	5-7 days
--------	-----------------------	------------	----------
